

Unix Server

We understand that the current server in the development environment is an IBM P5 series server, while the server in the production environment is an IBM P6 server.

Dec 2012 – Server was changed, but had to keep the same software

Hardware Configuration

Model	IBM Power 8231
CPU	4 x Power7 (3 Ghz)
Memory	3 GB RAM, 2 NIC
Hard Disk	2 x 146 GB
Removable Drive	
Tape Drive	

Software Configuration

Operating System	AIX 5.3
Database	Software AG Adabas V5.1.6
Language	Software AG Natural V6.1.1.22
Tool	Software AG Predict 5.1 and Natural Security V5.1
Other Software	AIX Operating System, ADABAS database, Natural Security, Natural for Unix, Entire Network, Web Server, Shell Scripts, NT Server, CSTARS Natural Source Code, CSTARS Visual Basic executables, Forms Templates, WINS Server, Domain Name Server.

Windows 2003 Server

The Windows Server will also be upgraded based on HP's technology refresh guidelines with a new HP rack server model after the first year of the contract.

April 2012 – was made a Virtual Machine

Hardware Configuration

Model	Dell PowerEdge 1650
CPU	2-1.4GHz Ultra SPARC III Cu processors
Memory	1GB memory (4-256MB DIMMs)
Hard Disk	8 GB and 26 GB
Removable Drive	DVD/CD-ROM Drive

Software Configuration

Operating System	Microsoft Windows 2003
Database	Software AG Adabas V5.1.2.02
Language	Software AG Natural V6.1.1.22
Tool	Software AG Predict 5.1 and Natural Security V5.1
Other Software	AIX Operating System, ADABAS database, Natural Security, Predict, Natural for Unix, Entire Connection, Web Server, CVCS Setup V5.1, Xmanager V2.0, EMFTP, WinZip V9, NT Server, CSTARS Natural Source Code, Symantec Virus Protection, Symantec Backup Exec.

Workstations

The following tables illustrate the hardware and software configuration of workstations for the offsite development team:

April 2012 – was made a Virtual Machine

Hardware Configuration

Model	HPSL Workstations
CPU	Intel Core™ 2 Duo CPU
Memory	2 GB RAM
Hard Disk	150 GB Hard Disk Drive

Software Configuration

Operating System	Windows XP SP 3 with Latest Security updates
Antivirus Software	McAfee Antivirus Software
Office Products	Microsoft Office 2003/07
Terminal Emulator	Software AG Entire Net-Work for Windows (WIN32) V7.2.3
Debugger	Software AG Natural Debugger for Windows 6.1.21

		Other Software	McAfee Endpoint Encryption, NT Work Station, Natural for Windows (Run Time), Entire Network, CVCS.
--	--	-----------------------	--

RoboHelp

This is used for the on-line CSTARS help. It was made a Virtual Machine and is running RoboHelp version 2000.

Hardware Configuration

Model	
CPU	
Memory	
Hard Disk	

Software Configuration

Operating System	Windows XP SP 3 with Latest Security updates
Antivirus Software	McAfee Antivirus Software
Office Products	Microsoft Office 2002
Terminal Emulator	
Other Software
